## Attachment A

**Effective April 2020-** The institution determined the population of students and the amount of each student grant utilizing a formula based on the Department of Education guidance. The institution determined that all active students (excluding students on externship or a leave of absence) had expenses related to the disruptions of campus operations and were considered for emergency grant funds from the CARES Act. In addition, based on Department of Education requirements, this population only included those active students who were eligible to receive Title IV funding. To ensure that the emergency grant funds were distributed widely to as many impacted students as possible, the institution made a decision to distribute \$250 per month to all eligible students until the CARES emergency grant fund allocation runs out.

**Effective February 2021-** The method used by the institution to determine the population of students and the amount of each student grant was revised to first determine the population of students with exceptional need based on the student's completion of a 2020-21 FAFSA and receipt of an ISIR with a valid EFC. Students with a zero EFC were in the first selection group and if funds still remained, the funds would be awarded to students with the next lowest EFCs and so on until the funds were fully expended. From the pool of exceptionally needy students, the institution first considered students for the CRRSAA award who met the following criteria:

- Have attempted the first module.
- Be actively enrolled and not on any type of leave of absence or Intent to Return
- Submit a signed Authorization Form directing the institution on how to apply the CRRSAA grant- either to be used to pay outstanding tuition charges or paid to the student to cover allowable components of their cost of attendance or other emergency expenses.

From the pool of eligible exceptional needy students, students who have been in school the longest have incurred the highest costs related to their attendance so the amount of the CRRSAA award will be determined as follows:

OPEID	023058	031133	025593	039696
Mods Attempted	Amount Awarded	Amount Awarded	Amount Awarded	Amount Awarded
Mod 1	500	500	350	350
Mod 2	1000	1000	700	700
Mod 3	1500	1500	1050	1050
Mod 4	2000	2000	1400	1400
Mod 5	2500	2500	1750	1750
Mod 6	3000	3000	2100	2100
Mod 7	3500	3500	2450	2450
Extern	4000	4000	2800	2800

The maximum amount awarded to an individual student must not exceed \$4000 or \$2800, depending on the institution the student attended.

**Effective March 2021-** The method used by the institution to determine the population of students and the amount of each student grant amount was revised to award the CRRSAA funds to the incoming March class start for students with exceptional need based on the existing criteria. The amount of the award was revised for this population to the amounts outlined below:

OPEID	Amount Awarded
025593	\$2300
039696	\$1500
031133	\$4000
023058	\$2700

**Effective April 2021-** The method used by the institution to determine the population of students and the amount of each student grant was revised to award the CRRSAA funds to the incoming April class start for students with exceptional need based on the existing criteria. The amount of the award was revised for this population based on the amount of the remaining allocation to the amounts outlined below to ensure the funds were distributed to the maximum benefit to students with exceptional need:

OPEID	Amount Awarded
025593	\$3000
039696	\$2000
031133	\$4500
023058	\$4000

The policy was also expanded effective April 2021 to include the pool of students who were actively enrolled and incurred allowable charges/ expenses on or after March 13, 2020 and who demonstrated exceptional need based on the existing criteria. Eligible students in this pool were awarded \$4000 to help cover any component of the recipient's cost of attendance and to ensure the funds were distributed to the maximum benefit to students with exceptional need.

**Effective September 2021-** The method used by the institution to determine the population of students and the amount of each student grant was revised to award the remaining CRRSAA funds to include the pool of students who were actively enrolled and incurred allowable charges/ expenses on or after March 13, 2020 and who demonstrated exceptional need based on the existing criteria. To ensure funds were made available to include a larger pool of eligible students, students in this pool were awarded \$2000 to help cover any component of the recipient's cost of attendance for the OPEID below. The amount of the award was revised for this population based on the amount of the remaining allocation to the amounts outlined below to ensure the funds were distributed to the maximum benefit to students with exceptional need:

OPEID	Amount Awarded
039696	\$2000
